RE: NSCRT Board of Directors position

To the Nominations Committee,

I'm contacting you in regards to the Director at Large position at the NSCRT. The enclosed resume details will show you that I have the career history and knowledge that would make me an asset to the NSCRT Board of Directors.

As mentioned in my resume, I studied at Université de Moncton and CCNB Dieppe and obtained my Bachelor of Sciences applied in respiratory therapy. I began my career as a respiratory therapist working at the Moncton Hospital, from 2012 to 2015. During this time, I had the privilege to work in many different areas, such as intensive care, emergency department, operating room, birth unit, and inter-hospital transport, and serve a diverse patient population. I have been an active member of the NSCRT since 2015, when I relocated to Nova Scotia to pursue a career in neonatal and pediatrics at the IWK Health Centre. As a registered respiratory therapist, I am responsible for providing quality respiratory care to patients, serving as a preceptor for students, and participating in continuing education. I hold up to date certifications in BLS, NRP and PALS, and have recently become and ACLS instructor. In February of 2018, I had the opportunity to participate in a medical relief and education mission to Port-au-Prince, Haiti, and learn about global health from healthcare professionals who have volunteered all over the world.

I believe that I would be a valuable addition to the NSCRT Board of Directors, as I am a driven individual who is always striving to better myself, and lead by example in order to promote excellence in the respiratory therapy profession.

Thank you for your consideration.

Best regards,

Monique Richard
